Education is about making the child grow with an uncluttered intelligence. An intelligence that is not identified and entangled in religion, doctrine or prejudice will naturally lead to ultimate blossoming of the individual.

SADHGURU

THE VALUE OF EARLY EDUCATION

EDUCATION, INSPIRATION & THE JOY OF LEARNING

Children are born with immense curiosity and imagination. We believe children are self-learners - all the time exploring, questioning, developing, imagining and contributing to learning.

Early infancy is the most crucial stage of the human life cycle where the infant has maximum curiosity which needs to be catered through holistic development. Therefore, Pre-Schooling is 'A small step towards a giant leap in a child's life'.

Hence, H3 is building a strong foundation for the self-learners, nurturing them by providing an environment to learn, observe, and question, thus, developing curiosity and fascination. H3 follows a practical learning strategy through creativity that is based on regular training and upgrading the teaching approach by keeping up with the changing pace of time.

Vision:

- To develop a community that respects a child as a self-learner.

Mission:

- To create a learning environment for children with the active involvement of parents and teachers, who together contribute towards building a strong foundation for children.
- To promote learning through observation and self-exploration.
- To promote co-operation and not competition.
- To provide a healthy and safe learning atmosphere.

Our Mentor

Shri Kamal Mangal

Mr Kamal Mangal, Founder and Chairman of Anand Niketan Group of Schools is a prominent name in the field of education. Originally a businessman, he turned in to a reformist in education when he started his journey as an edupreneur in the year 1996, when he realised that there is a huge gap in the education system as what we teach in schools and what is needed in the practical world was vastly different. This is how the first Anand Niketan School came into existence and today his vision is shared across 15 schools - imparting quality education all over Gujarat and neighbouring states. A self-motivated visionary whose aim has always been to inculcate the social and moral values in children through the medium of education, Kamal Ji started his first school as a comprehensive learning centre in the year 1996 at Shilaj, Ahmedabad which is now a leading name in the city, state and country.

Possessing an extremely progressive and fearless attitude, he is always ready to join hands with people sharing the same beliefs and is always enthusiastic to venture towards new horizons for the benefit of children. H3 school is a result of his passion about his favourite subject- designing a 2020 education system- an educational pattern which will connect "today with tomorrow" not "yesterday with today" and will have practical implications of life skills.

H3 LEARNING CONCEPT

A Realm of Best Practice, Promoting Holistic Development in Children

H3 approach is specially devised for the needs of the alpha generation, building a fine balance between hands, heart, and head for the holistic development of the child!

A well-researched curriculum to provide all-round development of our child.

At H3, we focus on 3H's
(**H**ands- Implementation, **H**eart- Inspiration & **H**ead- Information)
rather than only Reading, Writing, & Arithmetic.

HANDS: IMPLEMENTATION

Hands are a magical gift to us. Through them, with our body, our curiosity and imagination, we can transform ourselves and any material we touch.

HEART: INSPIRATION

Heart plays a major role in our life. The heart is the key to all relationships we have in our life. To feel compassion, love, generosity and even dealing with sorrow we need to train our heart.

HEAD: INFORMATION

We need to train our head, as Reasoning, Knowledge, and Thinking plays an important role in our life.

WHILE DEVELOPING OUR CONCEPT, WE HAVE ALSO KEPT IN MIND SOME OF THE MODERN LEARNING APPROACHES TO SUIT THE NEEDS OF THE FUTURE GENERATION.

PARENTS AS PARTNERS

AT H3 PRE-SCHOOLS WE BELIEVE, AN EXCELLENT WAY FOR PARENTS TO GET TO COMMUNICATE AND BE IN TOUCH WITH THE CURRICULUM IS THROUGH:

- QUARTERLY **MINI ASSEMBLIES**
- WEEKLY **INTERACTIVE PARENT ACTIVITIES** FOR HOME
- FEEDBACK OF ACTIVITIES THROUGH 360 DEGREE

PARENTS CONNECT APPLICATION

Parents' Involvement As Our Partners:

- Avoid saying 'No' all the time to the child.
- Promise/say only those things which you intend to fulfil, rather than using it for instant solution.
- Your child is unique, so avoid comparing them with others, even if the intention is good. As a fact, nobody wants to be compared to others.
- Observe your child only 15 minutes a day without speaking a word. This has its own long-term benefits.
